DEATH CALLS AGAIN

SARAH DELANO'S DEATH WAS FORECAST

'Beacon Light' Magazine Gave Two Specific Warnings

Those who imagine that astrology is humbug will be dumbfounded to know that Wm. Kullgren, editor of the BEACON LIGHT, Atascadero, California, has warned his readers twice this year, forecasting the approaching death of a "member of his family, likely a woman or a child" while outlining the President's horoscope. And along the same lines Kullgren is predicting more to come. Here is the correct quotation from the BEACON LIGHT for February, 1941:

Roosevelt— There is a possibility of sickness and death for a member of his family, likely a woman or child . . . . Incidentallly death is going to wreck the plans of those in the saddle throughout the world. The grim reaper within the ranks will administer severe punishment. We have already touched on that in the predictions of the year. Lord Lothian has fallen by the way; . . .

Death Strikes Again and Again

In the issue for August, 1941, Kullgren again warns of oncoming death:

Roosevelt—Death will **again strike**, and it is very apt to come within the family group. Serious differences within the family, domestic and official are indicated . . . .

MRS. ROOSEVELT'S BROTHER DIES

Ill Several Days; Sister at Bedside

WASHINGTON,— G. Hall Roosevelt, 51, only brother of Mrs. Franklin D. Roosevelt, died at Walter Reed hopital. The White House announced that he had died at 5 a. m., Sept. 25, and that Mrs. Roosevelt was at his bedside

His death was the second in the president's family circle within the month. The president's mother, Mrs. Sarah Delano Roosevelt, died Sept. 7 at her Hyde Park home at the age of 86.

He had been seriously ill for several days and Mrs. Roosevelt had been in almost constant attendance at his bedside.

Sarah Delano Roosevelt has passed on. Students of astrology will have an opportunity to watch further developments on the chess board of Providence which is watching over these United States and is protecting the republic.

THEY Planned Ruin of Small Business

San Diego manufacturing plants other than aircraft factories, already are feeling the pinch of materials shortage, the San Diego Employers' Association, Inc., has found in a survey undertaken as part of a nationwide canvass of the situation. Unless needed material is made available, many plants in this city will have to shut down with a resultant loss of employment to many in the city and vicinity.

"We are cooperating with the National Association of Manufacturers in an effort to stem nondefense unemployment," said Bruce Vernier, Employers' association secretary. "It is estimated that 90,000 of the nation's manufacturers may be hit—some fatally—by defense material rationing and hundreds of thousands thrown out of work."

Sheet Metal Scarce

San Diego manufacturers and builders already are feeling the pinch of materials rationing, Vernier said.

"Sheet metal workers find it almost impossible to get metal; plumbers report increasing difficulty in obtaining supplies and the building industry here is fearful that a curtailment of work will have to be ordered.

Roosevelt Packed Legion Convention

Gov. Heil Holds To Accusation Against Legion

MILWAUKEE,—Gov. Julius P. Heil explained that approval by the American Legion of a resolution calling for aid to Russia prompted his statement that the organization's national convention was controlled by President Roosevelt.

"I talked to hundreds of legionnaires while they were here last week," the governor said. "Not one of them favored the resolution for aid to Russia."

Neutrality Act Repeal Asked In Resolution

WASHINGTON,— Sen. McKellar (D-Tenn) introduced in the senate a resolution to repeal the neutrality act which bars the arming of American merchant ships and prevents them from entering combat zones.

McKellar said he though that while the law was on the statute books, the government was "paying virtually no attention to it" and for that reason it ought to be repealed.

'Declaration of War'

Sen. Taft (R-O) expressed belief that repeal of the act would be "equivalent to a declaration of war."

In the house Rep. Woodruff (R-Mich.) said Roosevelt was going to "give congress an opportunity to agree with him the act should be repealed."

'Not in Effect Anyway'

"It would matter little to him whether congress did or did not modify or repeal the ragged remnants of the neutrality act, because Mr. Roosevelt, in effect, repeals and modifies and amends statutes to suit himself when he feels the occasion requires," said Woodruff.

"The American people ought to understand —and most of them probably do understand— that when the president issued in a world-wide radio broadcast his famous order to the navy to 'shoot on sight' at any German or Italian submarine, surface or aircraft, he himself shot the decrepit neutrality act right throught the vitals. It has, of course, been as dead as the dodo ever since."

Impeach Roosevelt

Hon. Kenneth Douglas McKellar
Senate Office Building, Washington, D. C.

My dear Senator:

The Associated Press reports that you introduced a resolution in the Senate today to repeal the Neutrality act because while the law is on the statute books, the government was "paying virtually no attention to it".

Sir, did you take an oath to uphold the Constitution and the laws of the U.S.A. or did you take an oath to repeal the Constitution and the laws of the U.S.A. whenever the administration in power choses to ignore the duly constituted government?

There is a difference between the government of the U.S.A. and the office holders. The government is constituted of the Constitution and the laws under the Constitution. Any office holder who violates them is a criminal.

It is your sworn duty to present charges against any and all officials of the administration who violate their oath of office and disregard the laws under the Constitution. President Roosevelt stated that as assistant secretary of the navy under Wilson he had violated enough laws to be sent to the penittentiary for 999 years.

It is your duty to send him now to that penitentiary while he is violating his oath of office and the Neutrality Law.

You have taken an oath to see to it that those in office uphold the Constitution and the laws under it. Before God you will be held accountable for malfeasance in office and you cannot escape God. Rest assured you will be called to account.

Yours truly,
C. LEON de ARYAN.

FREE PRESS — AGE 251

With the candles of more than two and a half centuries of celebrations cluttering its birthday cake, American journalism this week amassed the respectable total of 251 years of public service. It was back on September 5, 1690, almost a century before the Declartion of Independence, that the first newspaper appeared in the American colonies. Printed in Boston published by Benjamin Harris, "Public Occurrences" was the Adam and Eve of the American journalistic family.

The life and death of "Public Occurrences" would be of little importance were it not for one fact. On its record appear these words: "Publication suspended! Appearance suppressed by the public authorities!"

In 1941 as in 1690, censorship remains a threat to the very life of every newspaper. The charge of "trivial reflections" that wrote "thirty" to the first American newspaper need not worry today's press. The problems of military and political control however, write large the question of censorship on the pages of every American journal.

The press of America, to a far greater degree than even its most ardent deprecators, seeks the answer to the problem of censorship. No American newspaper wants to give away military secrets. No American newspaper wants to harm America, or its cause.

But every American newspaper believes with its soul and its ink, its type and its heart in a free press. It believes a free press means a free people. It believes a captive press means captive minds and captive souls. It believes in the right of America to see, read and hear the truth.

The first American newspaper died the death of censorship. The history of American journalism might well record the history of the last, in so far as its great tradition is concerned, on the day that censorship stifles the freedom that has made the American press great.

Boarding House Persecutions

STATE OF CALIFORNIA
Governor's Office
Sacramento

Honorable Paul A. Richie, etc.

Dear Assemblyman Richie:

This is my first opportunity to give attention to your letter of September 8 in regard to San Diego boarding houses. I am glad you have given attention to this matter and so fully reported to me the conditions which you find, because otherwise I would have no knowledge of it.

There are two State agencies which have to do with housing conditions. One is the State department of Public Health, under Dr. Brown, and the other is the Division of Immigration and Housing, in the Department of Industrial Relations, under Carey McWilliams; the duties of the latter being to enforce the State Housing regulations. It is impossible for me to believe that either of these State offices, in the administration of the laws controlling them, could be directly or indirectly influenced by any of the competitive busines interest to which you refer.

I am sending a copy of your letter to Dr. Brown, asking him for a thorough investigation of the matters set forth in your letter and report to me on the same. I am also sending a copy to the Chief of the Division of Immigration and Housing, asking for a report from that office as to whether any of the places to which you refer have been accused of violating any of the Housing regulations administered by that office. As soon as I receive these reports I will communicate with you further and feel certain that any mistake made will be quickly corrected.

With kind personal regards, I am
Sincerely yours
CULBERT L. OLSON,
Governor of California.

Declared a legal paper of general circulation for the County and City of San Diego, by Superior Court order, January 15, 1932.

Entered as second-class matter March 27, 1931. at the postoffice of San Diego, California, under the Act of March 3, 1879.

Today's Anniversary Issue

Eleven years have passed since THE BROOM saw the light of day. And one thing we have demonstrated: It is possible to have a free press.

Today we are starting upon the first issue of our 12th volume. You have witnessed the efforts of one single individual who without capital other than his faith in God, set forth to serve his country by stating the truth about events, principles and people as he met them week after week. It cannot be done? Why brother, I am doing it.

Fearing no man, and knowing only the fear of God, makes us independent of factional leanings. And going one step further, we have FAITH in God who keeps His promises and is not such an out and out liar like the President, who never keeps his, except to pack the supreme court, make the U. S. Constitution inoperative and make this as near a Communistic government as the gullibility of the people will let him. And there lies the difference between those who place their faith in a liar and a politician and those who, like myself have FAITH in GOD and never falter. And the Lord keeps His promises. I am wearing no man's collar and this is the beginning of volume 12.

Freedom of Religion

Today, as always, emergency or no emergency, GOD RULES SUPREME. In His name did we take the oath of allegiance to the Constitution and we still place it above Roosevelt, the liar and his rubberstamp congress and supreme court. According to Christ war is a crime and those who draw the sword are bound to perish by it. "God does not want the death even of a sinner", says scripture, and to take an oath in the name of God to obey orders blindly to murder other people wholesale is the acme of blasphemy. Such an oath is irreligious, criminal and void. If you want to murder do it on your own hook, leave God's name out of it!

As long as God rules this universe and not Roosevelt and Churchill, both of them paid henchmen of the Rothschild and Lehman clans, to whom they have sold their countries and peoples in subjection and in bondage to the tune of billins, we need not be afraid to place obedience to God above all other considerations. Long after Churchill and Roosevelt are dead and gone, God continues to be the source of our life to whom alone we are accountable for its conduct.

The next program of **"de Aryan Comments"** will be heard over KGB next **WEDNESDAY night, 8:45.**

The Nazi "Stock" Racket

There are some people in the U. S. as well as in Europe who are hero worshippers. I am not. Neither Roosevelt, Stalin, Churchill, Hitler or Mussolini is my hero to whom I am bound for life and allegiance.

Recently I asked those who sympathize with this attitude to help my work along by voluntary contributions. I received several. Here is the correspondence concerning one of them.

My Dear Mr. and Mrs. ———

Thanks for your kindly help.

Humanity never progressed by force and violence, nor by the adaptation of the same cheating system of book-keeping, or banking, by merely shifting the personnel from a bunch of Jews to a bunch of "Schuften" with the Nazi brand. The Nazi financial system is just as rotten if not worse, than the Jewish they supplanted.

Only inner growth will free humanity from slavery.

Sincerely, C. LEON de ARYAN.

* * * *

Now the above Mr. and Mrs. ——— forwarded my letter to Mrs. Washburn with the follownig information:

Dear Mrs. Washburn: **Maybe you'll enjoy reading our little note about your friend de Aryan.** My husband wrote him recently sending him $10 and said that "Hitler was fighting the same forces over there that de Aryan was condemning here". Evidently he does not agree. He was writing in his paper how hard it was to keep going financially and asking for aid. Well if my husband ever sends him another cent I'll crown him.

* * * *

Mrs. Washburn Writes

Dear Friend de Aryan:

My friend in ——— has forwarded to me for reading your letter to her criticising the Nazi financial system and declaring that humanity never progressed by force and violence, etc.

It sometimes does us good to "see ourselves as others see us", and so I am passing this information along to you, inasmuch as the first copy of THE BROOM that was ever read by these fine people was placed in their hands by yours truly, and while they are not possessed of great riches I know them to be generous contributors to every worthy movement that has come to their attention. I know also of their having withdrawn or withheld further support of leaders who insist on compromising with the Jew who is the devil incarnate. If the Jews were not devils and worshippers of Lucifer, as their Talmud proves, then the Lord Jesus Christ would not have taken the trouble to have told them so, or to have lashed them out of the Temple or to have condemned them to hell.

While it may be true that "humanity never progressed by force and violence," human progress is now at a dead stand still or worse, it is retrograding down the devil's greased slide, and it will continue the descent until it is checked by the destruction and uprooting of the curse of Judaism, and the only way that that can be done **is by force and violence,** because the law of the jungle is the only law these devils respect; so we must be governed accordingly. If the Lord Jesus Christ had to use a scourge of nine cords in His day, He would surely have to use a machine gun in our day, since the wharf rats or "vipers and serpents" as He called them have multiplied from 500 devils in the U. S. .A. at the time of the framing of our Constitution to about 15 millions today, with all the rest that are being vomited out of every port in Europe and Asia coming to America, "their Promised Land" as fast as they can get their passports.

I wonder what you really know about the "Nazi financial system". My good friend the late Arthur Kitson of London, was one of Hitler's advisers when he nationalized the Reichsbank, and Kitson is considered a world authority on monetary affairs. Are you? For your information, with the nationalizing of the Reichsbank in February, 1937 the German people ceased to pay tribute in the form of USURY to the international Jew. Surely that makes them a great deal better off than us saps in the U. S.. A. True, they haven't started yet to pay themselves handsome dividends from the savings thus affected, but this will come for the Germans long before this country is able to lift its head from the curse of such bondage. The reason they haven't begun to "share the wealth" there is obvious: they had a war to finance, and they are paying for that as they go. They will not be burdened with post war debts like the damned fool Americans who will not only be burdened with their own debts, but those of England, as we're still holding the bag for England's debts of the last war. So just keep on criticizing the Nazis and showing your ignorance. You once gave out a slur to me about the penny minded souls with whom I associated for whom you cared not. Well, at least they have brains enough to understand the world fraud, plots and conspiracies of the organized world murderers of the 300 Hidden Hand of secret world government of Freemasonry and the tribes of Benjamin and Judah. Anyone who disregards these cold-blooded facts might as well go soak his head.

Yours very truly,.
LOIS de LAFAYETTE WASHBURN.

Whose Ox Is Gored ?

My dear Mrs. Washburn:

It is remarkable. I received your letter. It stands out so clearly that when you expose the Jews and their Lucifer trait, THAT is telling the truth. When I include Hitler and his Nazis in my expositions of the self-same Lucifer traits and give you a tag for the same reason, THAT is "slurring" you and your Nazi heroes.

It is remarkable how some people talk so glibly about our Lord Jesus Christ and forget that HE GAVE HIS LIFE in refusing to meet violence with violence because it does not solve our individual or social problems. If you quote the Lord in one thing, why not follow the Lord in all things?

I agree with you on everything you say about the Jews. I have the proof myself. But I do not agree with you and your friends and other Nazi worshippers on the methods of solving the problem. I fully condemn it.

Anyone who imagines that my policy can be bought for $10, or $100 or $5000 as was recently offered to me, has yet to become acquainted with me.

Your question about my being an authority on monetary affairs simply rebounds: Are you? How do you know that the socalled "authority" is an honest authority? For your information, I am the only authority I recognize to formulate my judgments on matters of importance in my life. And to this end I have studied the fundamentals and principles in ALL matters pertaining to my presence here on earth, so that in the twinkling of an eye I can tell whether I am on the right track or not. Once you know the principle of the thing the detaails are simple.

While the reorganization of the Reichsbank is noteworthy to the extent that Germany is no longer paying interest to the Rothschilds, the thing which will produce a revolution in Germany as soon as the war stops is the Nazi racketeering which is much worse than in pre-Nazi days of the Jewish control of industry. Stocks, stocks, stocks, who owns the stocks and how is ownership of stocks acquired in Germany?

When the soldier veterans return from the war and find how they have been done out of the opportunity of owning a proper share in Germany's industries and land by the stock grabbing Nazi party henchmen who by force, coercion and tactics, that put an Al Capone to shame and outdoes anything Pegler exposed in the AFL, acquired the stocks, then watch what breaks loose.

I am not one of those who, because he sees the Jewish crimes, is willing to swallow the Nazi crimes. All the warring nations are of the same ilk: Murderers at heart!

Sincerely yours,
C. LEON de ARYAN.

God Save America

Instead of singing God Bless America, let us sing God Save America after this fashion:

God save America
From British rule.
Stand beside her and guide her
From the schemers who would make her a fool,
From Lexington and Yorktown,
From blood-stained Valley Forge,
God save America
From a King named George.

Almighty Rosenvelt

Dear Myrt:

I don't know what geography Hal is using, but if he says Iceland is not in the western hemisphere he is letting himself be influenced by Nazi propaganda. Of course Iceland is in the western hemisphere, if Mr. Roosevelt says it is. And even if it isn't, he could order a must-law passed and move it, I guess. So what difference does it make? Just think, Roosevelt can get a law passed to do anything. I think someone should write him a letter suggesting that he have a law passed that Adolf Hitler has been completely defeated. Then everybody could stop shooting everybody else and go home. Why does anybody fight wars when passing a batch of Mr. Roosevelt's laws fixes everything without a bit of argument?—Roll Call.

Panaceas Never Work

Beckwith Exploits Lindbergh's Speech

If the reader does not know who Beckwith is, here is his biography: Ex-Socialist, ex-minister, ex-Single Taxer, runs a weekly paper, THE FORUM, in Stockton, California, supposed to talk on economics ONLY, but even therein he is an EX.

The latest effluvia of Beckwith deals with Charles Lindbergh's speech at Des Moines, says Beckwith:

> Lindbergh's offense is the greater because he was so bold and his statement was given nationwide publicity—**that** was his real offense!
>
> What they are doing to Lindbergh is a crime; **yet, because this is viewed as a matter of morality, his attackers imagine they are by this attack proving their own virtue. . . . .**
>
> **It is considered immoral to blame people for things they cannot help—that is, for having red hair, or pug noses, or Roman noses, for being born with Jewish blood, or for the religious faith in which they are reared.**
>
> Lindbergh's critics were quick, therefore, to catch him up and to crucify him for his reference to the Jews, even though he said what he did say in a kindly and considerate manner—merely saying that it is understandable that the Jewish people should want Hitler defeated, just as it is understandable that the British people should want Hitler defeated. Lindbergh admitted this, but he urged them to consider that **by their error in judgment they might be bringing disaster upon the country and themselves.**
>
> But, because the public has not learned to think of economics as a science, Lindbergh gets no credit for his kindly moderation; instead, he is attacked for "raising the race issue."
>
> But the public knows no better than does Lindbergh how to discuss this matter without raising such issues.
>
> Neither he nor the public knows any other way.
>
> And yet, once it is seen that economics is a science as exact as any science, **it will be as easy to be impersonal in discussing the war and crooked politics as it is to be impersonal in discussing physics or chemistry.**
>
> **Then we shall have no race issue.**
>
> **Then we shall have no religious issue.**
>
> **Then we shall have no loyalty issue.**
>
> **Then we shall have no sectional issues, nor any geographical issues. . . . .**
>
> This is because economics has not been studied as a science.
>
> But the crucifixion of Charles Lindbergh points most emphatically to the need that economics be studied in that way.
>
> The crime of this era is its failure to study economics as a science; for, were we to study economics as a science should be studied, **we would find the solution to this problem in which Lindbergh is so earnestly and so patriotically interested.**
>
> Once we get our economics on straight, we would see no more wars. Then such sacrifices as Lindbergh is making would not be made.

* * *

"ECONOMICS" Hallucinations Are Worthless

To give you an example of who Beckwith is: He denied in a dozen articles in his paper that Jesus taught ECONOMICS, while Jesus is the most masterful economist, as well as spiritualist and moralist. And AFTER Beckwith categorically denied that Jesus taught economics, Beckwith upraided the clergy in another dozen articles because the clergy DOES NOT teach Beckwith's brand of economics in their churches and refuses to have anything to do with Beckwith.

If Jesus did NOT teach economics, according to Beckwith, why should the clergy open the churches to the teaching of economics, since the churches are to teach what Jesus taught and not something else.

Beckwith is too dense to see what a fool he makes of himself when he denies that Jesus taught economics and in the same breath berates the preachers for not teaching economics.

Now in this article about Lindbergh, Beckwith again makes impossible promises: "Once we get our economics on straight, we should see no more wars", says Beckwith. And "we shall have no race issue, no religious issue, no loyalty issue, etc."

In plain language, Beckwith is baiting for suckers. Being an Ex-Socialist, he is still a Socialist, in that he looks for a panacea, a social panacea.

Economics has been known before the world was created. God Almighty did not have to wait for Henry George, or the IMPROVEMENT on Henry George in the infallible Stockton Pope, Beckwith, to work out economics. Therefore there never was a time when the Great Sages did not fully cover the field of economics **according to the intelligence of their audience.**

Why did Jseus point to the spiritual side of economics, rather than the material? Because unless the spiritual field is cleared the material intellect can achieve no progress within the race.

Why does the race not want to study economics as a science, and refuses to acknowledge that it is a science? Because of the unsolved race, moral and religious issues.

Murder Rules their Hearts

What good would it do to bring the pig into your parlor, he is a pig still. You can take the horse to water but you cannot make him drink. The world has had wars and more wars and demands another one right now, even here in America, because they want REVENGE on "Hitler". Whether one "merely" ships supplies to England or shoots, the hate effect and the war madness is there. Therefore, as long as there is murder in the hearts of people, they refuse to THINK and because they do not think, they refuse to recognize the scientific value of economics.

From time immemorial the leaders of humanity were confronted with a bunch of beasts in human shape whom they tried to humanize.

Not till the beast is humanized that it will start to THINK and use its faculties of mind CONSTRUCTIVELY. The beast uses whatever intellect he, and she, has to be more beastly and they drape themselves in the garments and the illusion of intelligence, but they have none.

And the reason for it is RACIAL, Moral and Religious. You cannot take a race of hogs and expect them to act like humans; even apes will merely ape. To be human you must FIRST love God with all your might and your neighbor as yourself, before that you are not a member of the human FAMILY.

Inhuman beings cannot think beneficially in in scientific matters, they utilize the destructive side of "science".

Unconstitutional Burocracy

Editor The Broom:

May I ask a little space in one of your columns to effect obliteration of laws not made in pursuance to the Constitution of the United States?

The California State Contractor's License law is vicious in its very intent. Its wicked because it ignores the Bill of Rights and the motive of the Constitution of the United States in general. Its an imposition on our Constitutional rights. Its an insult to our American intelligence, and a reincarnation of the "Dark Ages". Its repulsive to any intelligent red-blooded American. Its abrogatory, dictatory and intolerable.

The Declaration of Independence and the Constitution of the United States were inaugurated to protect the people of these United States from the tyranny of the officials and also to protect their posterity, against suffering the same intolerance they had been subjected to.

There is no mistaking the aim, the intent, the motives the framers of the Constitution had in mind at the time they inaugurated it. They were clear-minded, specific in purpose and far reaching in vision. If it were not for the assurance that the Constitution incorporating the Bill of Rights is the supreme law of the United States, and that all laws of these United States must be made in pursuance thereof, and that all the Judges and Judicial officers are bound by oath to preserve, protect and defend this Constitution, there would be no redress from the tyrannical motives of many of our officials.

Some of these days some of our Judges will be brought before a higher tribunal to answer and show cause why they should not be restrained from upholding laws not made in pursuance to the Constitution of these United States.

The Constitution in the Bill of Rights, Article 14 distinctly and emphatically states "No State shall make or enforce any law which shall abridge the privileges of the citizens of the United States". We should at all times bear that fact in mind.

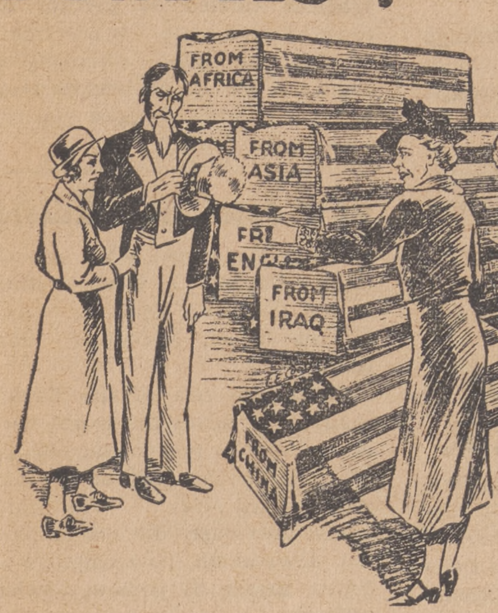
Hollywood War Propaganda

"I agree with the writer in this morning's Tribune that people are staying away from the movies in droves because they dread and resent the war propaganda."—Olive Lewis in the Chicago Tribune.

BUNDLES ?



WILL WE RECEIVE THESE?

WILL YOU BE THERE TO SEE HIM DIE ?

Carpenters working day and night—
Making caskets gay and bright.
In one of them will your son lie?
Will you be there to see him die?

His eyes blown out by poisoned lead,
His right arm hanging by a thread,
His body lying in the mud,
As from his belly oozes blood—
Your blood, the birthright of your womb
Crimson anointing for his tomb?

Will you be there to see him die,
To hear his last faint moan and cry:
"O God, is this democracy,
This death those devils planned for me
Safe at their desks in Washington?"

Then, mothers, if you have a son,
Leave tasks behind, and, yes, today,
Be quickly, quickly on your way
Before those vultures pass the bill
Whose purpose is to maim and kill,
As Caesar rules with iron hand,
And death swoops down upon the land.

Make haste, then, with no instant lost,
Lest life by gold is double-crossed—
Inaction bringing thru the years,
Regret that finds no balm in tears,
But only pain, remembering ,
You failed to do the one last thing
That could have saved our liberty,
And kept your dead son's future free—

Carpenters working day and night,
Making caskets gay and bright.
—Weekly Roll-Call.

What Do You THINK ?

Only 5% of the people think,
10% more imagine they think,
but of the 85% many will soon
have to die
because they do not think !

Gorillas in the White House

Editor: The Broom—

News over the radio have it that people from Africa are sending their most ferocious Gorilla as a gift for the President.

If these simple minded Africans knew anything about our own most ferocious Gorilla they'd put a Maginot line around their continent to keep their Gorilla in and ours out.

Canadians Not Enthusiastic

NEW YORK,—A German triumph over Russia was predicted by Premier Mitchell F. Hepburn, of Ontario, Canada, who also saw the war bringing America and the Canadian Dominion closer together.

"Germany will overrun Russia," Premier Hepburn said during an address at a "V" for victory luncheon. "We will win the war with our resources, but Germany will have all of Europe first.

"We have resources, manpower, brainpower and money—but we lack the will to work. Great Britain is the outpost of America and we must give Churchill the tools with which to fight."

Hepburn scored American and Canadian lethargy, saying:

"While Germany was rearming and building the greatest war machine ever known, we were investing in idleness. We even loaned Germany money to build that machine."

Heckler Paid $5 for Tossing Egg at Wheeler, Allegation

WASHINGTON,— The office of Sen. Wheeler (D-Mon) made public a telegram charging that a young boy reportedly received $5 for attempting to throw an egg when the senator made a speech at Billings, Mont.

The telegram was sent to the non-interventionist leader by Willard Fraser, Billings business man and chairman of the America First chapter in that city. It said:

"Largest auditorium in Billings filled to capacity and huge crowds listened outside through microphone installed for that purpose. Two or three groups of obviously-paid hecklers attempted in vain to distract citizens. One 13-year-old boy threw an egg and reportedly was paid $5 for so doing. His name is Robert Budge. Senator unaware of egg being thrown until informed of incident after address . . . Wheeler carried 90 percent of town into his camp. A few Communists, anglophile warmongers could not prevent citizens rallying to his standard. Suggest you release this to press."

America in Danger

By Chas. B. Hudson

OMAHA, Nebr.,— Part of Organized Jewry Intl. Finance plot to destroy private enterprise, both large and small, and enslave us in all walks of life. THE JEWISH PRESS 9-12-41 predicts that about 1-3rd of nation's small business men will have to close up shop before the end of this year!

In re such predicted "liquidation", note following from the JEWISH REVIEW 9-4-41: Under across-page caption: "SWASTIKA OVER AMERICA", whole page devoted to smearing those who tell something of truth about Anti-Christ warmongers. In bold type, it threatens (those whom Jewry accuses of hating them, altho a real Christian harbors no hate when indicting the wicked): ". . Anti-Semitism, like any other movement, must grow or die . . . **He who hates Jews does so at his own peril** if he is a member of a minority. It is a luxury that may destroy him . . " Then it discusses the author of **THE OCTOPUS; Rev. Winrod** of Witchita, Kas. (DEFENDER magazine—50c per yr.); **Wm. Kullgren (THE** BEACON LIGHT, 25c monthly, Atascadero, Calif.); **Dr. Brinkley** (seriously ill with leg amputation and bad heart); **Col. Coughlin,** and a few others.

On another page, the JEWISH REVIEW, under across-page caption: "UN-AMERICAN ACTIVITIES", a 2-column-wide item demands Postmaster Genl. investigate use of Congressional frank, claiming anti-Semitic literature going under **Repr. Hamilton Fish's** frank in mails.

LINDBERGH'S PROOF

That JEWISH REVIEW proves who the warmongers are. You can't "smash Hitler" without going to war. That paper announces: " . . The Natl. Trade Union Council of the **Jewish Peoples Com.,** thru **Arthur Osman,** Chmn. announced that a **'Smash Hitler Now'** mass meeting will be held on Thurs., Sept. 18 at Manhattan Center. . . called to **rally support behind** Pres. Outstanding trade union leaders and prominent American (?) liberals are expected to address the meeting.

Naval Shore Sleuths Approved by F. D. R,

WASHINGTON, — President Roosevelt has signed a bill permitting Secy. of Navy Knox to set up a special plainclothes force to combat threats of espionage and sabotage in naval shore establishments.

The measure also permits appointments of a $7500-a-year civilian to head the new special protective force, and authoritizes expenditures of $1,000,000 annually to maintain it.

In testimony urging passage of the bill, naval officials declared that such a force was essential to guard properly vital naval secrets and protect construction work at naval yards.

"Hitler controls the great empire of Germany to a very great extent by means of secret investigators. Recently I have read a good deal about the activities of the secret police in Germany and in Russia. I cannot escape the conclusion that in the end such measures as the pending bill would lead to great difficulties. I confess I do not want to live in a country in which I do not know but that every other man I pass on the street may be a secret officer. He may listen to everything I say. He may be breaking into my office or my home to look over anything I may have. However, the hysteria which will come will mean that it will be almost impossible for one charged by a secret organization of this kind to obtain justice in our own liberty loving country."—Sen. George Norrris of Nebraska in debate on the Million-Dollar Knox Espionage Bill.

"This business of giving Secretary Knox a private espionage force at the cost of a million dollars to the taxpayers is the veriest poppycock and the veriest nonsense that ever was tortured into a so-called defense article. Mr. Knox is totally irresponsible insofar as an organization of this sort is concerned."—Senator Hiram Johnson commenting on private police force for Knox.

How Jews Rule Russia

James Waterman Wise, son of Rabbi Stephen S. Wise, writing in the magazine, Opinion, edited by his father, December, 1933, said:

"With the rise of the Soviet regime . . . never the world witnessed such a spectacular change of front on the part of a great state toward Jews . . . The State which previously did not employ any Jews at all, now employs in White Russia 61 percent Jewish officials. . . . "

Unbelievable, But True— The 5-Day Month

With locomotive engineers, firemen, conductors, brakemen's unions demanding a 30 per cent wage advance, here is what the figures show: A passenger locomotive engineer on a California railway is now paid $8.67 an hour. However, his union so restricts the mileage he may run that he works only 43 hours a month—or 60 days a year—for which he receives $373 a month—or $4,476 a year.

The requested advance would increase his hourly pay to $11.27; his monthly pay to $485 and his annual pay to $5,820—for working, remember, 43 hours, or about 5 days, a month!

Now pending is the withdrawal of the union's mileage restrictions; if accepted, the engineer—if he preferred—could work 20 ordinary 8-hour days a month instead of 5. With his hourly pay check still at the requested $11.27, his monthly earnings would total $1,801—his annual income, $21,624!

Medical Tuberculosis Racket

CHICAGO,— Many persons may be put to bed for rest treatment for tuberculosis who do not have the disease.

In a report before a symposium on tuberculosis at the 50th anniversary of the University of Chicago, Dr. Florence B. Seibert of the Henry Phipps institute, Philadelphia, declared that a wide variation in sensitivity had been found when the protein portions of the tubercle germ, the most potent part of it, is injected into animals and humans.

The problem of correct diagnosis is also complicated by the fact that calcium deposits in the lungs may be due to diseases other than tuberculosis but on an X-ray plate will look like typical tuberculosis damage.

In a series of tests on animals false reactions to tests for tuberculosis were often obtained by first "sensitizing" them with very minute doses of the tuberculin protein, as little as two-hundredths of a milligram. Later a larger dose caused typical tuberculosis indications even in normal individuals who had no trace of the disease.

WHAT WILL TURKEY DO ?

Travelers from Turkey, natives of Turkey, are reporting that the "news" we are getting about Turkey are faked. They say that the people there were dead set against Russia, the Communists and their Jewish Commissars, whom they ALL hate. As to Great Britain, the people are opposed to supporting British imperialism, especially since the invasion of the Iran, realizing what to expect from Britain which has gobbled up one Mohammedan country after the other.

France Heavy User of Alchol

BERN,—The Swiss living in a mountainous country and working much out of doors, consume three times as much alcohol as Americans, but they are far from being the heaviest drinkers in Europe.

Statistics published by Tapio Voionmaa, Finnish minister in Bern, in his recent work, "Researches on the Alcohol Question" show that between 1935 and 1937 the average Frenchman drank 20 litres (more than five gallons) of pure alcohol a year.

For other countries the figures were: Spain (1930), 15 litres, Italy 11, Switzerland 10, Belgium 8, Rumania and Greece 6, Great Britain 4.5, Hungary and Yugoslavia 4, Germany and Bulgaria 3.8, United States and Sweden 3 to 3.5.

The skipper was making up the log for the day, and the first item ran, "The mate was intoxicated". When the mate saw it he asked the skipper to delete the entry. "No," said the skipper. "It was true wasn't it?"

Some days after the mate was in charge of the ship, and his first entry in the log was "Captain sober today". The skipper immediately asked him what he meant. "Well," said the mate, "it was true, wasn't it?"

HEALTH-GERMS

By George Starr White, M. D.

CONSTIPATION

Dr. Geo. Starr White

LOS ANGELES,— The word constipation means a slowing up of the bowel-movements—a blocking of intestinal activities, and the retention of the feces—the large-bowel contents.

Constipation is the cause of more un-health than any other one factor we know anything about. It causes fermentation gas formation, auto-intoxication and general systemic poisoning.

A constipated person cannot digest starches. That is why I have heavy starches such as grains and potatoes, taken from the diet of one who is troubled with constipation.

Many think that to eat coarse foods or substances like bran, will relieve constipation. This is an often fatal error, for the bran and other coarse substances will "bake" in the large intestins and cause impaction and other serious troubles.

Refined sugar helps cause constipation and so does common table-salt. Yeast dries the bowels when eaten raw. Yeast fermentation in the bowels causes first a diarrhea then a drying of the mucous membranes in the bowels; and helps produce a serious intestinal trouble. Live yeast is bad for the intestins. Yeast should be well cooked before it is safe to eat.

Mineral oil is not absorbed, but lubricates the bowels and helps move for a time. In so doing, the bowel secretion is checked and a dry bowel is the result. The so-called "internal-bath", as a regular practice, is a snare in the dark. It makes the bowels stop their natural action and they "lie down on the job".

Eating rapidly crowds the stomach so it has to let the mixed food out into the intestins before it is properly digested. The intestins are also crowded; and the result is constipation or diarrhea.

Diarrhea is the opposite to constipation in action; but the causes are often just the same. The one condition usually follows the other, so the remedy for the one is the remedy for the other in many cases.

All these bowel troubles can be prevented and cured by careful and proper exercises and diet; and deep abdominal breathing. No one ever knew a good singer to be constipated.

Find the foods that will keep your bowels in proper condition and stick to them. The sweet fruits and green leafy vegetables help keep the bowels in good shape. With many persons apples will keep the bowels active. With others, prunes act best.

Avoid condiments as they irritate and dry the bowels. Drink a big glass of cool water before each meal and between meals.

Some of the worst cases of bowel troubles I have been able to quickly cure by having all aluminumware discarded from the kitchen. Aluminum, combined with the salts from cooking foods, is a terrible poison to the intestins; and often seems to be a cause of cancer of the intestins.

Constipation is of so many varieties and caused by so many factors that there can be no "one reliable" cure. Eat correctly and exercise correctly and the bowels will act correctly. Don't take enemas or "physics" except on rare occasions. Natural foods and herbs are the best laxatives.

URIC ACID

As a Factor in the Causation of Disease

By KATHERINE LARSON

This article is written for those who have lost all hope in search of health by methods that did not "work" and who are now trying to find the true causes of their ailments.

After you have spent a life time and a fortune with the use of medicines, injections, vitamins or so-called health foods, spinal adjustments or any electrical treatments **and are just as bad off** as you were before, if not worse, it is time for you to study what causes and keeps up your disease.

We are introducing here Dr. Alexander Haig's exposition on uric acid as a factor in the causaion of disease. It is not new because it was tested out by Dr. Haig as a practicing physician already 40 years ago. His works have caused a sensation and were translated in most European languages but the younger generation of American doctors today do not even know Dr. Haig's name or his outlines concerning uric acid as the cause of disease. Only in Europe is it well known, especially among those who apply drugless methods or nature cure in treating physical ailments.

I am quoting Dr. Alexander Haig:

Uric Acid and its Properties

"Uric Acid is a by-product of the formation of urea and is always formed in the body in a definite quantity relation to urea, about 1 to 35. From this it follows that a person who forms 350 grains of urea a day forms also 10 grains of uric acid. This uric acid generally passes out of his body day by day without difficulty, unless he adds on to it other 10 or more grains **contained in the food he eats.** In that case he may overpower his ability to hold uric acid in solution and excrete it and so he retains it in his body with all the subsequent troubles to which it leads".

Note to Readers, By K. Larson: Please save these articles in THE BROOM for later reference, because we will in our later discussions on different forms of disease always refer back to this outline by Dr. Haig. In fact these articles give you a key which will explain to you the cause of physical ailments generally called "diseases".

democracy

By Charles H. Ingersoll
(Of Dollar Watch Fame)

General Lear seems stumped by the 'Life' and 'Time' showdown of Army morale. The general is a disciplinarian with a philosophic trend. He won't give the boys any Hoo-Hoo concession; but he is liberal enough to blame their folks at home for some of the bad breaks the efficient Luce papers prove.

Ingersoll

The situation here is mixed. From F. D. R.'s claim of 100% behind him, to Ham Fish's 85% against is quite a gap. And, considering that we are **not** at war but only making believe, ten-year sentences and shooting draftees from behind, mix the situation more. Roman Catholic Chaplain Zenigraf frankly reports that the draft extension bill upset soldier morale. This is a slant from quite a different sector than Lear's.

'You can't do business with Hitler' is clever as propaganda goes; but that's all. The whole trade portion of our Foreign Relations sideshow is a farce, including our waste of a half billion dollars on South America. The pretense of concern over foreign trade, and now Britain's similar pretense, is unmasked by our persistent adherence for half a century to the most top-heavy Chinese tariff wall that the world knows. And England's disgrace in this respect is even greater than ours, because **'Free Trade England'** had come to be a great example of freedom; and even her world imperialism and militarism (her Hitlerism) had been made tolerable by this crucial freedom on which its empire was founded. And all was upset—cancelled—in a characteristic reprisal by its House of Lords. So that our two great democracies now agree that **'We can't do business with Each Other!'** Or with any of the lesser democracies we are so solicitous of!

New Jersey is acquiring a reputation for political complexes, in an atmosphre of anarchy, where nearly everything must be done backwards, since regular processes are sacrificed to politics. This condition includes Governor Edison signing a bill abolishing the injunction in **normal protection** of property rights, although he is one of the state's largest property owners. Next, he fosters what Frank Hague calls a 'steal' of $121,000,000 by railroads. Now he is rebuking the Attorney General for not upholding the constitutionality of this 'steal'.

The Governor is a New Deal Democrat in a stand-pat Republican frame—a bad complex indeed. Injunction against depredations of unionism are futile in our communistic regime. Taxation of railroads should be abolished, as in any industry, if their monopoly privileges are made to yield all their income in exchange for exemption of their investment and operation. But the Governor is not moving to clear up these moot questions.

America First and the Jews

The Chicago headquarters of the America First Committee has replied to the protests of Jewish leaders concerning the statement of Lindbergh that the "British, the Jews and the Roosevelt administration" were the three most important groups "which have been pressing this country toward war".

After analysis of Lindbergh's statement the Committee decided to stand behind Lindbergh since the mere statement of a well known fact does not represent anti-semitism in the sense of incitement to hatred and violence. Consequently the Committee refuses to be impressed with the wailing of those Jews whom the shoe pinches and who are attempting to drag the red herring of racial and religious prejudice across the trail by which the war mongers have been identified and convicted in their own eyes.

The America First Committee has done the right thing.

The attitude of the Jewish hate peddlers and "V" saboteurs of the American Constitution must of necessity rebound upon themselves. The real Americans in this nation are having a terrific task facing them for the future. First we have to re-establish the republic which has been ruined by the New Dealers under Rosenvelt, Morgenthau, Frankfurter, Baruch, Lehman, Rosenman Henderson, Cohen, Hillman and the other hundred thousand Jews in key and secretarial positions, whether clerks or officials. Next we will have to protect these very Jews against the outburst of the mob when the NEW DEAL collapses and the people in desperation lose their heads and demand the scalps of their despoilers.

The Jewish question could be settled intelligently, but as long as Lehman Brothers outfit ships, load them with contraband of war and send them into the war zones with a select list of Americans as passengers, looking for trouble hoping to be captured or sunk by German war vessels, America is in danger of war, which means loss to all of us. The NEW DEAL through priority rules destroys small business and turns it over to Lehman Brothers and their ilk. When the showdown comes and men like Lindbergh are discredited, **Lindbergh, de Aryan** and others who hate violence **will not be able to hold the mob back.** Instead of discrediting the true Americans, Jews should strenghten our hands for a reasonable and just balance in place of the pogroms which a wild mob always enacts.

Lindbergh and Galileo

To refresh your memory: Galilei Galileo, a distinguished Italian physicist and professor of mathematics at the university of Pisa, made himself a telescope, copying Jansen's product, and made a series of most important astronomical observations. His mathematical computations, on the basis of his own observations, proved that the Copernican system of rotation of the earth around the sun was really true and not the sun around the earth. For this "heresy against the Holy Bible" he was twice persecuted by the Catholic Inquisition, first in 1615 and again in 1633. On both occasions he was compelled to abjure the system of Copernicus; but it is said that in the last instance, when he had repeated the abjuration, he stamped his foot on the earth, indignantly muttering, "Yet it moves!"

Now in these United States of America we are having a Jewish Inquisition which slowly arrogates to itself the authority to dictate our lives. It is known as the NEW DEAL and previously was known as Zionism, Communism, and recently UNION NOW. Henry Ford exposed it and was hailed before the bar, but like Galileo, he compromised and abjured the existence of the Jewish Inquisition. Of course that has not changed the fact. The Jewish conspiracy has produced the present world war and keeps it going.

Now Charles Augustus Lindbergh dared name it and what a storm of accusation, threats and challenges has been let loose by the various and allied branches of Jewdom. As a result young Lindbergh is to be hailed before the bar and "given an opportunity" to abjur in public his "heresy" that the Jews control America at present, hide and hair, officially and economically, even "culturally".

Will Lindbergh be man enough to stand aloof and refuse to play the part of Galileo?! Of course, Galileo figured that abjuration makes no difference, "Yet it moves!"—For the solar system is not dependent upon the pleasure of the Inquisition. Thus the TRUTH persists. But what greater character and karma would Galileo have brought out had he defied the Inquisitors to the bitter end as did Jesus the Christ when the Jews took revenge for saying in John, 8, verse 44, that the Jews were the devil's own brood.

Labor Racket
"de Aryan Comments"

Labor Racket Opposition Grows

Mr. Frank Lansteiner who runs a meat market at 3881 Pacific Boulevard, in Van's Market, gave me some startling information which I am passing on to you. In San Diego the A. F. L. Butchers Union, has been one of the first unions to control the trade by enforcing closed shop conditions and forcing its members to pay as high as $100 initiation fees to hold a job. But all that is a thing of the past as far as 33 meat markets are concerned in San Diego, announces Mr. Lansteiner. He informs me that a 'Committee for American Type Labor Organizations' has been formed by 33 independent meat market who have defied the AFL regime in San Diego most successfully, both as to hours and Sundays in which their markets are open to the public, as well as to forcing their employees to pay $100 initiation fee in order to hold a job.

The only thing which Lansteiner regrets is that he cannot find San Diego wholesalers who would supply these markets with miscellaneous products sold by local shops so that he could spend his money in San Diego instead of having to patronize out of town wholesalers who dare defy the labor racket. The business agent, in person, picketed Lansteiner's store the other day. Lansteiner who keeps his market open until midnight, said that he never had so much trade as during the time that he was being picketed. Evidently the people in San Diego are sick and tired of Labor Union dictation.

The next program of **"de Aryan Comments"** will be heard over KGB next **WEDNESDAY night, 8:45.**

Restore the Hapsburgs

NEW YORK,— Felix, of Hapsburg the younger brother of the Archduke Otto, the pretender to the Austrian throne, has left New York on a secret mission to London. Felix travels under the name Duke de Bar, and is expected back within a few weeks.

It is not on a pleasure jaunt to shoot grouse in Scotland nor to have tea in Buckingham palace alone. The story is that the extraordinarily ambitious Zita is once more moving heaven and earth to have Crown Prince Otto elevated to the Austrian throne. Several weeks ago, when British dispatches were building up the appearance that Stalin had become Hitler's nemesis the ex-empress got very busy, and with the full approval of Washington authorities, Felix departed for preliminary conversations in London.

Highly placed Britishers in New York are privately sick at heart over the startling course of grim events in Russia. They are faced with the now incontrovertible fact that the territorial gains the Soviets have been making in the Smolensk and other areas of the huge fighting front in the East have ben brought about by deliberate Nazi retreats to facilitate the formation of pockets around whole Russian armies.
